

Net4kids in a nutshell

Focus. Net4kids Aid Foundation supports projects for the benefit of children through the provision of financial grants, contacts, resources and expertise. Focus is on the developing countries, primarily in Africa and Asia.

Activities. Net4kids facilitates in connecting sponsors and projects, offering sponsors the opportunity to select a project of their choice. And vice versa: connecting projects to sponsors: those seeking funding for initiatives are connected with potential sponsors.

Eligible Projects. Net4kids supports specific projects of non-government organizations (NGO's), as well as independent projects. Projects should be for the benefit of children and can cover: Schooling and education - Medical aid - Safe water - Housing - Food - Family support, etc.

Project criteria. Net4kids has set strict criteria for projects to be eligible for sponsoring. Of course projects should be aimed at long term benefits of children and have clear objectives and operational plans. Apart from visits from Net4kids representatives to the project site, the executing organization will provide regular reporting over the internet.

100% for children - Net4kids provides an internet marketplace that brings potential donors and projects together

- Select the project of your choice
- Receive individual reporting
- No costs deducted
- Money back guarantee

Transparency and accountability. When choosing a project, the sponsor can be assured that 100% of the donation is allocated to that project: all overhead costs are funded separately. Frequent communication about progress is provided to the sponsors about the accomplishments of the project.

Internet. Internet is the centerpoint of Net4kids' strategy. Being the ultimate platform to connect people and make distances disappear, the internet is instrumental to individualisation and complete transparency and accountability. When necessary Net4kids provides IT Infrastructure for reporting over the internet.

The people behind Net4kids. A large number of people support Net4kids: those who run the projects locally, the sponsors and the Net4kids team in Amstelveen.
