

- **Child Watabaran Center Nepal (CWNC)**

Here a quote of Ms. Poonam Pariyar, Coordinator of Child Watabaran Center (home and education). She is an example of the commitment and drive of our project partners.

*"When we started working with these children, we worked with the commitment to give them love and care which had always been lacking in their life. CWNC works with the Right Based Approach for these children not being sympathetic to their condition but more realizing that they do have their right to education, food and medicine. Besides, education and vocational trainings it was the **Family** that they needed the most. The caretakers in all the homes always stood by their side as their brothers, sisters and a guardian. The family environment that they got in CWNC made them realize the importance of a family in an individual's life. They were taught how to eat, how to talk, how to clean and every little thing that they needed in the practical life ahead. Stopping them when they were wrong and praising them when they were right, **CWNC transformed them from an unthinking person of some other world to an emotive creature who felt joy in happiness and cried in sorrows.**"*

Hira Lal Giri – Peer educator Mobile Health Service

Hira stays in CWC Nepal, continuing school in grad Eight. He is an ex street child now and works as peer Educator, sharing his ideas about drugs, behaviors, health, safety and performs peer counselling and basic medical dressings.
